

Horses for sale from Fattoria Voltrona

It's hard to describe our horses not only with superlatives! They are all great individuals with nice personalities, creating a calm, harmonic and united herd where they all have their place. They are more or less forward, they all have a clear brake and they are always eager to please their rider.

The horses are used to kids, dogs, traffic, to be showered, shod and clipped. They are all steady and walk through any terrain without problem. All of the horses can be ridden on their own, before and during the tourist season, they all get regular individual training. Most of them are five-gaiters but they are all ridden as four-gaiters.

The horses have been regularly vaccinated, wormed and shod/trimmed; every winter during their three months long winter rest they are barefoot. None of them have eczema or laminitis, during their time at Voltrona they've been healthy and free from injuries.

We gladly help to arrange or find alternatives of transportation in case of acquisition. Welcome to contact me for more information on info@voltrona.com! /Linnea
